PROFESSIONAL SUMMARY

High-impact **Frontend & Web Developer** with 2+ years of **professional experience** delivering scalable, user-focused web applications for startups and mid-sized companies. Specialized in **React, Angular, and modern JavaScript**, with a strong track record of improving performance, reducing development time, and enhancing user experience. Known for writing clean, maintainable code, collaborating effectively with cross-functional teams, and turning business requirements into production-ready solutions.

TECHNICAL SKILLS

Programming: JavaScript (ES6+), TypeScript
Frontend: React.js, Next.js, Angular, HTML5, CSS3, SCSS, Tailwind CSS, Ant Design
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication
Databases: MongoDB, MySQL, Firebase (Firestore, Auth, Hosting)
Tools: Git, GitHub, Docker, Vercel, Jira, Trello, Figma

PROFESSIONAL EXPERIENCE

Frontend Angular Developer
Freelance Web Developer

Aug 2025 – Present

- Delivered **end-to-end web solutions** for multiple clients using React and Node.js, covering dashboards, authentication, and CRUD workflows.
- Translated client requirements into clean, maintainable code while consistently meeting deadlines.
- Strengthened expertise in **cloud deployment, performance optimization, and scalable architecture**.

Frontend Developer (MERN Stack)
Troon Technologies Pakistan – Islamabad
Sep 2024 – Aug 2025

- Designed and delivered production-grade Angular applications using TypeScript, implementing reusable components that accelerated feature delivery by 15%.
- Integrated and optimized REST APIs to support real-time data updates, reducing response latency by 20%.
- Enhanced application performance through lazy loading, code splitting, and bundle optimization, raising Lighthouse performance scores by 15%.
- Contributed actively to Agile development cycles, participating in sprint planning, code reviews, and debugging, which cut post-deployment issues by 25%.

Codnocrats Innovating Solution – Peshawar
Jul 2023 – Aug 2024

- Owned frontend development for a **healthcare management platform** used by **500+ daily users**, streamlining workflows and **reducing manual processes by 30%**.
- Built scalable and reusable **React UI components**, collaborating closely with backend teams using Node.js and Express.
- Developed and consumed RESTful APIs for patient records, appointments, and reporting modules, improving data accuracy and system reliability.
- Modernized legacy UI components to improve responsiveness and accessibility, resulting in a **40% increase in mobile user satisfaction**.

SELECTED PROJECTS

CareOS — AI Hospital Management System

- Built full-stack hospital management system with patient, doctor, appointment, and lab workflows
- Integrated Grok AI for clinical notes, diagnosis suggestions, and lab interpretation
- Implemented RBAC, JWT authentication, and real-time alerts with Socket.io
- Stack: React.js, Node.js, Express, MongoDB, Tailwind CSS, Grok AI, Socket.io
